

**Remarks**

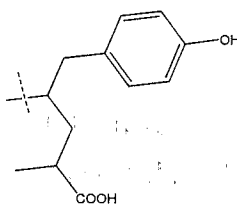

Applicants are in receipt of the Office Action dated April 7, 2008.

Applicants respectfully request reconsideration of the Restriction Requirement. In particular, it is believed that multiple groups can be searched and examined together without undue burden. Indeed, all claims were considered in the International Search Report of the parent International application. Additionally, considerable time and expense will be saved if all claims can be considered at this time, rather than pursuing multiple divisional applications.

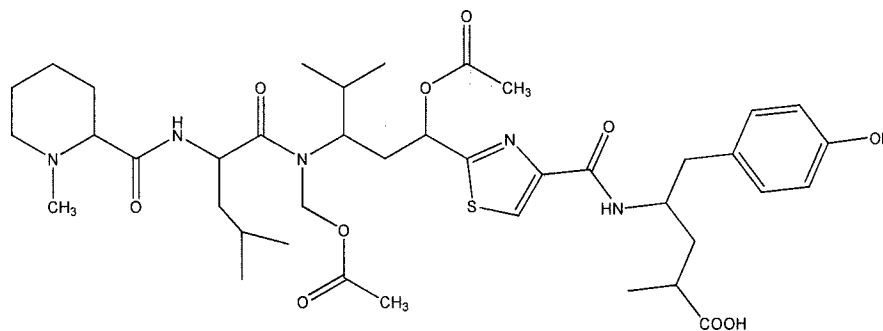

To provide a complete response, Applicants elect Group I, claim 24, as that Group is defined in the Office Action.

With regards to a species, Applicants elect the compound described in the formula on page 42 of the application in which  $m=2$ ;  $R^1$ =methyl;  $R^6$ =isobutyl;  $R^9$ =isopropyl;  $R^{17}$ =methyl;  $R^{20}$ =methyl; and

$R^{19}$ =

This compound has the structure shown below:

Please note the species listed in the non-compliant response of May 7, 2008 was listed through inadvertent error and without deceptive intent. The species described herein should be properly elected.

Early consideration and allowance of the application are earnestly solicited.

Dated: September 10, 2008

Respectfully submitted,

By: Nicholas J. DiCeglie, Jr.
